## Columns Magazine-A Great Client Gift Option

AIA Dallas' Columns magazine has expanded its scope and become the premier publication of the built environment in North Texas. Each issue of Columns includes informative features, beautiful photography and news of interest to art and architecture leaders and observers. Beyond the eloquent feature stories from guest authors, each edition includes recurring critiques, project galleries, and local arts pieces. Consider giving gift subscriptions to AIA Dallas' award-winning Columns magazine to any of the design aficionados in your life. Your gift will be appreciated every quarter as the new publication arrives at their door...and you'll be remembered as the issues arrive.
